S

“Peculiarities and ethics of communication with a sick child and her parents.”

Developers:

Prof. Mykola ARYAYEV as. of prof. PhD Daria USENKO. as. of prof. PhD Larysa KAPLINA.

Note. In the case of publication of methodological developments as an independent printed work, the academic council of the faculty provides a recommendation for publication in the presence of two reviews, one of which is external — from a reviewer of another institution of higher education.

Topic: Prolonged cough in children, features of communication with parents.

Purpose: Deepening of knowledge and master the skills of mastering professional competences regarding communication with the parents of a child with a prolonged cough, obtained in the course of studying the subject; promoting the development of creative thinking. The ability to logically express and argue one's thoughts, to listen to each other, to criticize productively.

Basic concepts: Algorithm for interviewing parents with a prolonged cough in a child.

Equipment: a mannequin of a child under the age of 5 years, mannequin of a child with a foreign body in the respiratory tract.

Study time: 2 hours.

Plan

I. Organizational moment (greetings, checking the audience, the message of the topic, the purpose of the lesson, the motivation of students to study the topic).

II. Control of basic knowledge (frontal survey on the basic terminology).

Questions to check basic knowledge on the topic of the seminar:

1. Algorithm for interviewing parents of a child with a prolonged cough.
2. Communication with the mother of a child with a foreign body in the respiratory tract.
3. Communication with the mother of a child with cystic fibrosis.
4. Communication with the mother of a child with lymphogranulomatosis.

III. Discussion of theoretical issues:

1. Algorithm for interviewing parents of a child with a prolonged cough.
2. Communication with the mother of a child with a foreign body in the respiratory tract.
3. Communication with the mother of a child with cystic fibrosis.
4. Communication with the mother of a child with lymphogranulomatosis.

The discussion of theoretical issues can take place in the form of a role-playing game, answers to questions, debates, discussions, presentations with reports, abstracts, discussion of reports and abstracts, reviewing student answers, etc.

Topics of role-playing games/reports/abstracts

1. Communication with the mother of a child with a foreign body in the respiratory tract (role-playing game).
2. Communication with the mother of a child with cystic fibrosis (role-playing game).
3. Communication with the mother of a child with lymphogranulomatosis (role-playing game).

Students can prepare didactic visual guides in the form of tables, code diagrams, slides, drawings, portraits of famous specialists, preparations during preparing a report, role-playing game, abstract, analytical review, etc.
