Seminar class № __1__

Topic: Work on the organization and implementation of preventive vaccinations in children.

Purpose: To deepen knowledge and master the skills of assessing the physical development of newborn children, obtained in the course of studying the subject; promoting the development of creative thinking. The ability to logically express and argue one's thoughts, to listen to each other, to criticize productively.

Basic concepts: Vaccination calendar. Live and inactivated vaccines. Mandatory and recommended vaccines.

Equipment: a mannequin for intramuscular, subcutaneous and intradermal injection, syringes, needles, antiseptic wipes, box for safe disposal, gloves.

Study time: 2 hours.

Plan

I. Organizational moment (greetings, checking the audience, the message of the topic, the purpose of the lesson, the motivation of applicants to study the topic).

II. Control of basic knowledge (frontal survey on basic terminology)

Questions to check basic knowledge on the topic of the seminar:

1. Vaccination calendar
2. Live and inactivated vaccines
3. Mandatory and recommended vaccines.

III. Discussion of theoretical issues:

1. Vaccination according to the calendar.
2. Classification of vaccines.
3. Mandatory and recommended vaccines.

Discussion of theoretical issues can take place in the form of role-playing, answers to questions, debates, discussions, presentations with reports, abstracts, discussion of reports and abstracts, review of applicant answers, etc.)

Themes of role play/reports/abstracts

1. Order of the Ministry of Health of Ukraine "On the procedure for carrying out prophylactic vaccinations in Ukraine and quality control and circulation of medical

immunobiological preparations" (report, discussion, discussion of reports and review of applicant answers).

2. Types of vaccines: live, inactivated (report, discussion, discussion of reports and review of applicant answers).

3. Preparation for vaccination (role play)

4. Vaccination with mandatory and recommended vaccines (report, discussion, discussion of reports and review of applicant answers).

5. Drawing up a vaccination schedule for children according to the schedule (role play).

When preparing a report, role-play, essay, analytical review, etc., applicants can, along with this, prepare didactic visual aids in the form of tables, code diagrams, slides, drawings, portraits of famous specialists, preparations, etc.).

IV. Summing up
