Seminar class № __7__

Topic: Emergency care for allergic reactions

Purpose: To deepen knowledge and master the skills of assessing the physical development of newborn children, obtained in the course of studying the subject; promoting the development of creative thinking. The ability to logically express and argue one's thoughts, to listen to each other, to criticize productively.

Basic concepts: Acute urticaria. Quincke's edema.

Equipment: a mannequin for intramuscular, subcutaneous and intradermal injection, syringes, needles, antiseptic wipes, box for safe disposal, gloves.

Study time: 2 hours.

Plan

I. Organizational moment (greetings, checking the audience, the message of the topic, the purpose of the lesson, the motivation of applicants to study the topic).

II. Control of basic knowledge (frontal survey on basic terminology)

Questions to check basic knowledge on the topic of the seminar:

1. Criteria and clinic of acute urticaria
2. Tactics of the doctor in case of acute urticaria
3. Criteria and clinic of angioedema
4. Tactics of the doctor in case of Quincke's edema

III. Discussion of theoretical issues:

1. Criteria for the occurrence of allergic reactions
2. Allergic reactions not related to anaphylaxis (hives, angioedema): clinic, diagnosis, treatment.

Discussion of theoretical issues can take place in the form of role-playing, answers to questions, debates, discussions, presentations with reports, abstracts, discussion of reports and abstracts, review of applicant answers, etc.)

Themes of role play/reports/abstracts

1. Diagnosis of acute urticaria (report, discussion, discussion of reports and review of applicant answers).
2. Providing emergency care for acute urticaria (report, discussion, discussion of reports and review of applicant answers).

3. Criteria and clinic of Quincke's edema (report, discussion, discussion of reports and review of applicant's answers).
4. Providing emergency care for Quincke's edema (report, discussion, discussion of reports and review of applicant answers).
5. Tactics of the doctor when detecting allergic reactions during vaccination (role play).

When preparing a report, role-play, essay, analytical review, etc., applicants can, along with this, prepare didactic visual aids in the form of tables, code diagrams, slides, drawings, portraits of famous specialists, preparations, etc.).

IV. Summing up
