Seminar class № __6__

Topic: Breast feeding.

Purpose: To deepen knowledge and master the skills of assessing the physical development of newborn children, obtained in the course of studying the subject; promoting the development of creative thinking. The ability to logically express and argue one's thoughts, to listen to each other, to criticize productively.

Basic concepts: Breast feeding. Support of long-term breastfeeding, correct position of the mother's body and the baby during feeding. Correct attachment of the child to the breast.

Equipment: newborn baby mannequin,

Study time: 2 hours.

Plan

I. Organizational moment (greetings, checking the audience, the message of the topic, the purpose of the lesson, the motivation of applicants to study the topic).

II. Control of basic knowledge (frontal survey on basic terminology)

Questions to check basic knowledge on the topic of the seminar:

1. Peculiarities of breastfeeding
2. Support of long-term breastfeeding
3. Communication with the mother of a newborn child regarding the correct position of the mother's body and the baby during feeding according to the Integrated Management of Childhood Diseases algorithm.
4. Communication with the mother of a newborn child regarding the correct attachment of the child to the breast according to the Integrated Management of Childhood Diseases algorithm.

III. Discussion of theoretical issues:

1. Problems of feeding and their management according to the algorithm of Integrated management of childhood diseases in children aged 0 to 2 months of life.
2. Support of long-term breastfeeding

Discussion of theoretical issues can take place in the form of role-playing, answers to questions, debates, discussions, presentations with reports, abstracts, discussion of reports and abstracts, review of applicant answers, etc.)

Themes of role play/reports/abstracts

1. Support of long-term breastfeeding (report, discussion).
2. Communication with the mother of a newborn child regarding the correct position of the body of the mother and the baby during feeding according to the algorithm of the Integrated management of childhood diseases (role play)
3. Communication with the mother of a newborn child regarding the correct attachment of the child to the breast according to the algorithm of the Integrated management of childhood diseases. (role play)

When preparing a report, role-play, essay, analytical review, etc., applicants can, along with this, prepare didactic visual aids in the form of tables, code diagrams, slides, drawings, portraits of famous specialists, preparations, etc.).

IV. Summing up
