Seminar class № __7__

Topic: Feeding healthy and sick children in the first three years of life.

Purpose: To deepen knowledge and master the skills of assessing the physical development of newborn children, obtained in the course of studying the subject; promoting the development of creative thinking. The ability to logically express and argue one's thoughts, to listen to each other, to criticize productively.

Basic concepts: Breast feeding. Artificial feeding. Therapeutic nutrition.

Equipment: baby mannequin

Study time: 2 hours.

Plan

I. Organizational moment (greetings, checking the audience, the message of the topic, the purpose of the lesson, the motivation of applicants to study the topic).

II. Control of basic knowledge (frontal survey on basic terminology)

Questions to check basic knowledge on the topic of the seminar:

1. Communication with the mother of a child of the first year of life regarding the support of long-term breastfeeding
2. Indications for artificial feeding
3. Appointment of medical nutrition for children

III. Discussion of theoretical issues:

1. Support of long-term breastfeeding.
2. Artificial feeding of children in the first three years of life.
3. Therapeutic nutrition of children with delayed physical development and malabsorption syndrome.

Discussion of theoretical issues can take place in the form of role-playing, answers to questions, debates, discussions, presentations with reports, abstracts, discussion of reports and abstracts, review of applicant answers, etc.)

Themes of role play/reports/abstracts

1. Support of long-term breastfeeding (report, discussion, discussion of reports and review of applicant answers).

2. Artificial feeding (report, discussion, discussion of reports and review of applicant answers)

3. Communication with the mother of a child of the first year of life regarding the appointment of artificial feeding (role play).

4. Therapeutic nutrition of children with delayed physical development and malabsorption syndrome (report, discussion, discussion of reports and review of applicant answers).

5. Appointment of medical nutrition for children (role play).

When preparing a report, role-play, essay, analytical review, etc., applicants can, along with this, prepare didactic visual aids in the form of tables, code diagrams, slides, drawings, portraits of famous specialists, preparations, etc.).

IV. Summing up
